SINDH FLOOD EMERGENCY HOUSING RECONSTRUCTION PROJECT

Government of Sindh
Sindh Peoples Housing for Flood Affectees
(SPHF)

1. Background

Pakistan experienced heavy monsoon rains between June and September 2022, which has severely affected millions of households, mainly in Sindh and Baluchistan. Around 33 million people have been displaced and more than 13,000 kilometers of roads destroyed. The flooding has damaged 2.2 million houses, flooded around 9.4 million acres of crops, and has killed an estimated 1.2 million livestock. Moreover, limited access to input and output markets and temporary disruptions to supply chains have driven up food prices and added to existing price pressures resulting from reduced agricultural yields and the global rise of food prices. Preliminary estimates suggest that as a direct consequence of the floods, the national poverty rate may increase up to 4 percentage points, potentially pushing around 9 million people into poverty. The recently completed Post-Disaster Needs Assessment (PDNA) estimates total damages to be US\$14.9 billion, while total economic losses have reached about US\$15.2 billion. Estimated needs for rehabilitation and reconstruction are at US\$16.3 billion, not including new investments beyond the affected areas needed to strengthen Pakistan's resilience to future shocks.

Sindh has been disproportionately affected by the 2022 floods. According to the NDMA, 792 of the 1,731 nationwide casualties were in Sindh, including 336 children, with 8,422 people injured. Similarly, reports estimate that more than 4.9 million acres of agricultural land has been affected in the province, which is more than half of the nationwide total.¹ Vast areas in Sindh witnessed prolonged inundation lasting several weeks.²

According to the last pre-floods housing census from 2017, there were 2,756,499 katcha and 5,600,885 pakka housing units in Sindh, with the former concentrated mainly in rural areas and the latter more prevalent in the urban areas. While house ownership is higher in rural areas, housing with unclear ownership status is proportionately higher due to the relative informality of the housing sector in rural areas. Assuming linear growth between 1998 and 2017, the number of katcha houses in Sindh have grown at a rate of about 1.6 percent annually, while pakka houses have an annual growth rate of about 4 percent per year. However as per the estimates, around ~two (2) million of these houses have been damaged by the floods in Sindh alone.

2. Project Description

I. Project Overview

For emergency rehabilitation to facilitate the flood affectees, the Government of Sindh has established a not-for-profit company 'Sindh Peoples Housing for Flood Affectees' (SPHF) to implement the Sindh Flood Emergency Housing Reconstruction Project (the **Project**), with technical and financial support of the World Bank. The Project design evolves from comprehensive discussions of the World Bank with the Government of Pakistan and the Provincial Government of Sindh. The reconstruction project aims to support (i) Housing subsidy cash grants for owner-driven reconstruction of multi-hazard resilient core housing units; (ii) Skill development of communities on multi-hazard resilient construction practices; and (iii) Technical assistance to Government of Sindh for design and delivery of the housing

reconstruction program. It will involve construction of approximately two (2) million housing units. These houses will be spread over a vast geographical area, locations of which will be dependent upon the Post-Disaster Needs Assessment (PDNA).

II. Project Development Objective

The project development objective is to support the Government of Sindh in the delivery of beneficiary-driven, multi-hazard resilient reconstruction of core³ housing units that were damaged by 2022 floods.

III. Project Beneficiaries

The Project would have specific benefits for people living in the geographical locations who will be served through the housing subsidy grants for reconstruction/restoration of their damaged houses. Through a beneficiary-driven approach, approximately two (2) million multi-hazard resilient core housing units will be supported. Roughly, half of these beneficiaries are estimated to be women, based on the demographic information available for these areas.

3. Assignment Objective:

The objective of this assignment is to meet the operational requirement of SPHF.

4. Procurement Process:

Procurement Process is being carried out in accordance with rules under Sindh Public Procurement (SPPRA) Rules 2010 (Amended 2019).

i. Invitation for Bids (IFB):

Invitation for Bids was published in leading newspapers of English, Urdu and Sindhi, dated 22th August 2026 and was also uploaded on SPHF's official website and on e-Pak Acquisition and Disposal System (E-PADS).

Copies of the newspapers clipping are attached as Annex A

The bid submission date was 07th September 2026 at 11:00 am. A total of Seven (07) Bids were received by the closing date and time.

The details of the 07 firms submitted their Bids through EPADS within the submission date are tabulated below:

5. Bid Evaluation & Comparison of Bid Prices:

a) A meeting of the Procurement Committee was conducted on 18th September 2026 to jointly discuss the received bids.

b) Preliminary Examination (Clause ITB 24):

- All seven bids were thoroughly reviewed by the Procurement Committee for preliminary assessment. It was observed that the bids were properly signed and the bid securities furnished correctly by all the bidders. All bids were in order and compliant to the requirements as per ITB clause 13.3 (d) of the bidding documents.
- All bids were considered responsive to the bidding documents.

c) Technical Evaluation:

It was observed by the committee that M/s Orange Room have not mentioned or proposed any brand or specification in their bid. As per bid opening minutes this firm has quoted PKR 24,400,000 which is on higher side as compare to the prices of other bidders. In view of this the bid of M/s Orange Room was not considered for further evaluation process.

The responsive bids were technically evaluated against the requirements and specifications given in the bidding documents. Based on the findings of technical evaluation it was decided by the Procurement Committee to seek clarifications from the lowest bidders whether they fully meet the required specifications under the bidding documents.

Subsequently, as per ITB Clause 23.1 [Clarifications of bids] clarification was asked from both the lowest bidders namely M/s Aakash Trader and M/s E&D Global Imports.

The copies of clarification letters sent to both the firms are attached as **Annex C**

In response to the clarification request, M/s Aakash Traders submitted a revised bid raising its original quoted price from PKR 19,257,917 to PKR 21,477,726. The firm also offered new models which are not permissible under ITB clause 23.1 of the bidding documents. Due to this change in the bid price and substance, bid of M/s Aakash Traders was not considered for further evaluation. The 2nd Lowest bidder i.e., M/s E&D Global Imports confirmed that the specifications of their items will fully comply with the requirements mentioned in the bidding documents.

Response received from both the 1st and the 2nd lowest firm are attached as **Annex D**

Based on the technical evaluation and in the light of the clarification received from the bidders a total of 05 bids were found technically qualified as per the specifications mentioned in the bidding documents.

The detail technical evaluation sheet of bids is attached as Annex E

d) Comparison of Bid Prices/Combined Evaluation:

Based on the technical evaluation of bids, the combined evaluation of the following was carried out:

1. M/s AY Capital
2. M/s Multi Dimension
3. M/s E&D Global Imports
4. M/s MH Kalyar
5. M/s Sind Computer

Government of Sindh
Sindh Peoples Housing for Flood Affectees
(SPHF)

For the purpose of bid evaluation, the proposed taxes by the bidders were deducted in accordance with ITB clause 25.4.

The combined evaluation including technical and financial aspects has been tabulated in the following table:

<u>S #</u>	<u>Name of Firm</u>	<u>Technical Evaluation</u>	<u>Bid Price (PKR)</u>	<u>Combined Ranking</u>
01	E&D Global Imports	Complaint	20,501,021	1 st Lowest
02	AY Capital	Complaint	21,608,255	2 nd Lowest
03	MH Kalyar Enterprises	Complaint	21,773,975	3 rd Lowest
04	Multi Dimension	Complaint	23,243,625	4 th Lowest
05	Sind Computer	Complaint	24,955,626	5 th Lowest

6. Recommendations

Based on the assessment of the submitted bids, M/s E&D Global Imports has emerged as lowest qualified responsive bidder with a bid price of PKR 20,501,021 (exclusive of taxes). The firm has met all the eligibility criteria, meets the required specs fully and provided the required documentation.

The Procurement Committee recommends awarding the contract to M/s E&D Global Imports based on their lowest bid price, compliant to all eligibility requirements and meeting the technical qualification parameters as set out in the bidding documents.

Customized Desktop Computer (ITEM NO.5)

Recommended high-performance configuration

1. Component Specification

Component	Recommended Specification
CPU	AMD Ryzen 9 9900X – 12-core / 24-thread
GPU	NVIDIA GeForce RTX 5070 Ti – 16GB
RAM	32GB DDR5-6000 CL30 – 2×16GB (RGB optional)
SSD	1TB acceptable
Motherboard	MSI B840 Gaming Plus WiFi
CPU Cooler	Quality 360mm RGB AIO or high-end dual-tower air cooler
PSU	850W 80+ Gold – preferably ATX 3.1 / PCIe 5.x
Case	Black tempered-glass / transparent high-airflow RGB case
Fans	Adequate ARGB case fans based on case airflow layout

2. Build Requirements & Notes

- RAM should be configured as a matched 2×16GB DDR5 kit for dual-channel operation.
- The power supply should support modern high-power GPU requirements and preferably comply with ATX 3.1 and PCIe 5.x standards.
- Select a case with strong front-to-back airflow and sufficient clearance for the graphics card and 360mm radiator if an AIO cooler is used.
- Install adequate ARGB fans according to the selected case's intake and exhaust layout.
- 2TB NVMe Gen 5 storage is preferred; 1TB may be selected where budget constraints apply.

3. Target Build Summary

Performance Class: High-end / enthusiast desktop

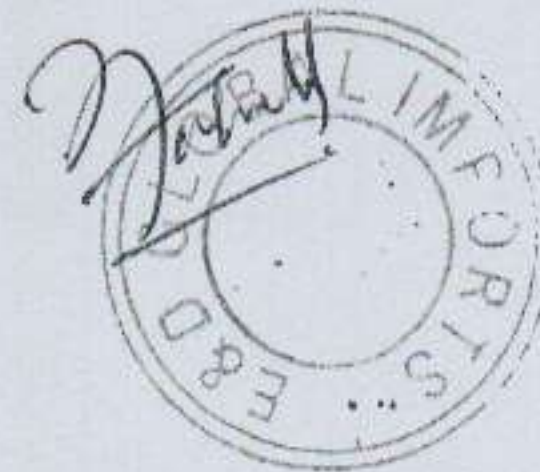

Primary Platform: AMD Ryzen 9 + DDR5

Graphics Target: NVIDIA GeForce RTX 5070 Ti 16GB

Memory Target: 32GB DDR5-6000 CL30

Storage Target: 1TB NVMe Gen 5

Power Target: 850W 80+ Gold, ATX 3.1 preferred
